the first time, and the first time I had seen it, I was very much struck by its beauty. It is a small tree, with a slender trunk, and a spreading crown, which is composed of a few large, spreading branches, and a number of smaller ones, all bearing a profusion of flowers. The flowers are white, and are produced in clusters, hanging down from the branches. The leaves are small, and are arranged in whorls along the branches. The bark is smooth, and is a light brown color. The trunk is straight, and is about two feet in diameter. The tree is growing in a clearing in a forest, and is surrounded by other trees and shrubs. The ground around the base of the tree is covered with fallen leaves and pine needles. The sky is clear and blue, and the sun is shining brightly. The overall impression is one of a peaceful and beautiful natural scene.
